

MARTIN LIZARRAGA

Senior Systems Engineer | Electronic Security & Home Automation Specialist

martinlizarragahernandez@gmail.com • +51992152656 • Lima, Peru • [linkedin.com/in/martin-lizarraga-2a598b38](https://www.linkedin.com/in/martin-lizarraga-2a598b38)

SUMMARY

Bilingual Systems Engineer with 12+ years of experience leading Techwise in the design and deployment of advanced electronic security and home automation systems. Expert in IT infrastructure, network architecture, and data analysis using Python and Power BI. Proven ability to integrate complex hardware/software solutions for corporate and residential sectors.

EXPERIENCE

Owner / Senior Systems Engineer
TECHWISE PERUANA EIRL
* Project Engineering: Led the end-to-end design and implementation of electronic security systems, including high-definition IP CCTV, biometric access control, and intrusion detection for corporate and residential sectors.
* Network Infrastructure: Orchestrated the deployment of structured cabling (copper/fiber) and network architecture (routing & switching) to ensure robust connectivity for security and automation hardware.
* Smart Home Integration: Engineered custom Home Automation (IoT) solutions, integrating lighting, climate control, and security protocols into centralized, user-friendly platforms.
* Technical Optimization: Developed data-driven analysis tools using Python and Power BI to monitor system performance, optimize technical support workflows, and improve project profitability.

Mar 2014 - Up-to-date
Lima, Peru

Systems & Technical Administrator
CARNIVAL CRUISE LINES, INC.
* ERP Administration: Managed the InfoShip ERP system for technical asset administration, ensuring real-time synchronization of inventory and maintenance workflows across the fleet.
* Technical Logistics: Coordinated international supply chains for specialized engineering components and hardware repairs, interfacing with vendors in the USA and Europe.
* System Support: Provided high-level troubleshooting and technical support for shipboard technical systems and hardware infrastructure.

Jan 2000 - Dic 2011
USA & Europe

IT Support Technician
SEGURO SOCIAL DEL PERU - EsSalud
Delivered comprehensive technical and administrative support for the institution's systems infrastructure, optimizing equipment maintenance reporting and control.

Jan 2013 - Feb 2014
Lima, Peru

EDUCATION

Universidad Señor de Sipán
Bachelor of Systems Engineering

Abr 2008 - Dic 2012
Lima, Peru

IST DATAPRO
Informatics & Programmer Analyst

Abr 1985 - Dic 1988
Lima, Peru

SKILLS

Technical Skills: Network & Connectivity: Structured Cabling (Copper & Fiber); Network Architecture; Wireless Solutions (Wi-Fi/Mesh & PtP/PtMP Links); TCP/IP; Routing & Switching; Electronic Security: CCTV Hybrid Systems (IP & Analog), leading the design and implementation of complex CCTV Systems ensuring high-definition coverage for diverse environments; Advanced Access Control & Time Attendance Systems; Intrusion Detection Systems; Home Automation (IoT): Smart Home Integration; Automated Lighting & Climate Control; IoT Device Management; IT Infrastructure: Server Administration; Hardware Troubleshooting; Systems Integration; Data: SQL, Python (Data Analysis); Power BI, Machine Learning; AI & Productivity Tools: Generative AI (Gemini, ChatGPT); Prompt Engineering for Technical Troubleshooting; Python-based AI Integration; Google Workspace (Advanced Suite)

Languages: Spanish (Native) | English (C1/Advanced)

Additional Skills: Project Management: Comprehensive planning and execution of technology projects from design to final delivery; Technical Troubleshooting: Advanced diagnosis and resolution of complex hardware and network failures in electronic security systems; Vendor Management: Coordination with international suppliers and technical component logistics (USA, Europe); Data-Driven Decision Making: Leveraging data analytics to optimize operational processes and business profitability; Bilingual Technical Communication: Ability to operate in high-level technical environments in both Spanish (Native) and English (C1); IoT & Smart Home Trends; Artificial Intelligence; Global Logistics & Markets; Home Automation DIY Projects

CERTIFICATIONS

- InfoShip ERP Specialist
- Marlins English (C1)
- International Maritime Safety Training (STCW)
